

Meridian LMS is ideal for member organizations who want to grow the revenue generated from their educational offerings.

Meridian for Associations

● **Course Catalog**

We deliver a consumer-grade course catalog that allows your members to easily locate the course offerings needed for their professional development.

● **Certification**

Notify members of due dates to maintain certifications, licenses, and accreditations.

● **Training**

Help members to close gaps between formal education and workforce readiness.

● **Compliance**

Support members worldwide with full page translations and GDPR compliance.

● **Gamification**

Use gamification, badging and surveys to spark member engagement.

Learning Management for Associations

Today's trade and professional associations are challenged to look beyond member dues for additional sources of revenue. Savvy organizations are strengthening their continuing education programs to generate growth.

● **Simplify Management**

Easily track and manage your complex accreditation requirements.

● **Customization**

Includes a personalized interface to match your association's branding.

● **Integration**

Meridian LMS easily integrates into your key technologies such as your AMS and other critical enterprise applications.

● **eCommerce**

Offers secure eCommerce functionality with flexible payment options, discounts and bulk training purchases.
